

Cosda Group(Qingzhou Caiji Food Co., Ltd) has been focusing on the technical research and development of leisure food for more than 20 years since its establishment. The company is committed to providing professional product application solutions for brand customers. With its innovative R&D capabilities and strict quality control system, it has become an important partner in multiple industry sectors both domestically and internationally.

Our company has obtained several domestic and international management system certifications, including ISO9001:2005, HACCP and HALAL, covering food safety, quality control, and other aspects. It provides high-quality products and services to over 1,000 clients in the food and confectionery industries worldwide. In collaboration with an expert team from Jilin University, the company has developed innovative products such as "Tea Lozenges" and "Coffee Tablets." The coffee tablets produced by our own factory have the leading sales in the entire network market, and the brand "Cuixing" has consistently ranked among the top-selling products on major e-commerce platforms. The company has a dedicated R&D team of 39 members, covering various fields such as tea science, food science and engineering, food quality and safety, fermentation engineering, and agricultural product processing, enabling strong technical R&D and innovation capabilities.

We will continue to focus on the food philosophy of "safety and health" and strive to provide high-quality, innovative, and market-demand-oriented food solutions to our clients, driving the sustainable development of the global food industry.
